EXPERIENCE

IBM India- Frontend Intern

01/2022 - 06/2022

- Learnt React, Angular including the basics like HTML, CSS, JS etc.
- Worked for an internal project based on MERN, which involved working with Schedulers, Scheduled Mails, File uploads, Mobile Responsiveness, OAuth etc.

IBM India - Application Developer

07/2022 - Present

During my time at IBM as a full time employee I worked on the following projects:

HSBC - Web Implementation (React.js):

- I improved a lot in other necessary skills like coding standards, code reusability, understanding the existing code base, API integration etc.
- Made a lot of reusable components to their own standard design system to maintain the UI as per the standards required by the client.
- My time in HSBC also included working on various epics like:
Quick Transfer, Activity History, Complex Notifications, Reset Password , Edit Profile etc.

Avantor (MERN):

- Built BE API's with Node.js and MongoDB database and integrated FE with React.js.
- Implemented CMS on both BE and FE for many features like Create Product, Create Page(with Flex components, Paragraph component, Carousel component) etc.
- Created the above CMS features so that it is only accessible for Admin User in the site.
- Worked on sending Emails from BE, sending scheduled Emails, File Uploads.
- My time in Avantor also included working on various epics like:
Blocked Products, Cost Savings, Cart, Product Page, Search Page, Checkout, Order History, Pricing of Products etc.

Ulta Cosmetics(MERN):

- Built BE API's with Node.js and MongoDB database and integrated FE with React.js.
- Worked on file uploads in Node.js.
- Worked on optimizing the Node.js code.
- Learned state management techniques in React while working with Context API and Redux.
- My Time in Ulta also included works in various epics like:
Home Page, Search , Product Details, Cart, Checkout , Order Summary, Notification Preferences, Admin Site etc.
